Washington, District of Columbia 20460

Dear FOIA Officer:

The Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) received a Freedom of Information Action (FOIA) requesting copies of the contents of the administrative processing track file to include notes and correspondence associated with the six oldest pending CDC/ATSDR FOIA Requests at the time of this request.

The search of CDC files produced documents that originated with your agency. We are referring those documents to your office for review, a determination of releasability and direct reply to the requester. We have enclosed computer disks containing both a redacted copy and a clean copy of the documents. CDC has no concern with the release of the CDC portion.

We have informed the requester of this referral in our response and have redacted the other agencies material from the documents we released. A copy of Mr. Ravnitzky's FOIA request is enclosed.

Sincerely,

A handwritten signature in blue ink, appearing to read "Katherine Norris", is positioned above the typed name.

FREEDOM OF INFORMATION ACT REQUEST

Dear Ms. Norris:

Pursuant to the provisions of the Freedom of Information Act, I respectfully request a copy of the contents of the administrative processing/tracking file/folder/notes, including emails, notes, memos, letters, correspondence, etc. associated with the

- SIX oldest pending FOIA Requests at CDC/ATSDR

Please omit the underlying requested documents that were the basis for the requests.

This is a noncommercial request for research and study purposes. This request best falls into the "all other requesters" fee category. I agree to pay up to \$25 for costs if necessary. Please presume openness, please release all segregable releasable portions and please use your discretion to release all possible records, even those that are technically exempt, if they will not cause foreseeable harm.

Thank you very much for your assistance with my records request.

Sincerely,

Michael Ravnitzky
